

# Bus Revolution

## The SEPTA Forward Bus Revolution project is advancing!

This project will improve bus service overall, making it easy for everyone to understand and use. The project goals include the following three priorities: **put riders first, increase access to opportunity, and build trust with reliable service.**

**Where is the Project now?** Last time you heard from us was in Summer and Fall of 2021 when we were out and about engaging with riders and members of the public to learn what tradeoffs they were willing to make when improving transit service. Our project team completed a detailed look at SEPTA's bus network and prepared several reports summarizing all work completed to date, including an Executive Summary. Other materials are available on the website ([SEPTABusRevolution.com](http://SEPTABusRevolution.com)).

**What is next?** Next steps are to share ideas for how bus service could be improved and hear from you – SEPTA riders and partners.

# Bus Revolution

SEPTA is coming to meet riders where they are! See the list below of upcoming Bus Revolution outreach events and the ways in which you can participate:
